Vermont

Let the crowds have Cape Cod—Vermont is the place to be on the East Coast this summer. The whole state oozes quaint New England charm, but for quintessential small-town vibes, the best spot to hole up is Woodstock. Stroll through the center of town and you'll find a bookshop, ice cream parlor, a boutique selling locally-made plaid blankets and clothes, and an old-timey general store. At the [Woodstock Inn & Resort](#), which was established by Laurence and Mary Rockefeller and revealed a \$6.5 million renovation last year, you'll have four restaurants to choose from including the elegant Red Rooster and the more casual Richardson's Tavern. The slopes won't be open, but golfers can play on the property's 18-hole course.
